1234 E Northern Ave
Phoenix, AZ 85020

DONATE NOW

The Foundation for Blind Children is a non-profit, tax-exempt charitable organization under Section 501(c)(3) of the Internal Revenue Code.
Donations are tax-deductible as allowed by law.

Dear Friends of FBC:

2023 was a momentous year at Foundation for Blind Children (FBC). As we look back, we feel incredibly grateful for your support. This year was full of new experiences, growth, and celebrations, and we are excited to share all our accomplishments with you.

We are lucky to be able to field an incredible team of people who work tirelessly to change the lives of the people we serve. After identifying the need for more support to our older community, FBC started our New Horizons program, which provided services to 92 seniors who are visually impaired in its first year. Our first cohort of students completed the S.O.A.R. program, the goal of which is to get high school students into their first jobs. Four out of four students were successful in beginning their first steps into the world of work. We grew our prison braille program to 115 braillists, who provide accessible textbooks and other materials to students across Arizona and around the country.

This year was also a year of transition. At the end of 2022, Marc Ashton, FBC's CEO, announced his retirement effective June 2024. Marc has been a part of FBC for twenty-seven years, first as a parent, then as a trustee, and now as CEO for the last seventeen years. We are filled with gratitude for his years of service and were glad to celebrate him and his legacy at this year's Night for Sight.

Jared Kittelson was unanimously appointed as FBC's next CEO. A longtime executive in the education and nonprofit industries, Jared has been with FBC for the last seven years, serving as Director of Education Services, Chief Operating Officer, and now as Associate CEO. We are fortunate to have someone who is ready to hit the ground running and ensure this transition is a smooth one. Jared has been a vital part of FBC's recent success, and we are excited for him to lead us into the future.

FBC's future is bright, and we're so thankful to have you, our supporters, at our side. Your constant support is what has made all these exciting accomplishments possible. FBC's mission is "to provide education, tools, and services that enable all persons with vision loss to achieve greater independence." Your donations, volunteer work, and encouragement are crucial to accomplish that mission.

We are fortunate to be a part of such an incredible community of clients, families, donors, volunteers, and professionals. It takes all of us to overcome challenges and to make our vision of a world where vision loss is simply a diagnosis, not a disability, a reality. Let's look at the annual report for 2023. Read on to get a better understanding of our successes and financial standing. Beyond the numbers, you'll get a sense of why we are all so proud to be a part of this community.

We thank you from the bottom of our hearts. Your support has allowed us to help more people, bring positive change to our community, and make the impossible a reality. None of this would be possible without you.

Moses Sanchez

Challenge Events

FBC believes in challenging people with vision loss to achieve feats they, and the world, thought impossible. Challenge Events accomplish this by giving students opportunities of a lifetime.

Previous events include:

- Swimming Alcatraz
- Hiking Mt. Kilimanjaro
- Sailing the Caribbean
- Hiking the Grand Canyon
- Rafting the Colorado River
- Flying across the United States

Each event requires demanding training for months to prepare. The effort is worth it when participants commit to push their limited and change their lives forever.

Cattleya's Journey

Every year at FBC's Stride for Sight, we challenge runners to try to run the 5k race blindfolded. For FBC student Cattleya, it was never a question of whether it was possible. Her favorite thing to say is "I can do it."

Cattleya is totally blind, but she doesn't let that stop her from doing whatever she wants. Her unbreakable spirit and fierce determination help guide her. Now in third grade, she shows incredible perseverance in everything she does. Whether that is learning multiplication families, getting on stage to sing a solo in front of her whole school, or learning to run with a guide, Cattleya first says that she can do it, and then she does it.

At school, Cattleya is supported by Claire, a teacher of the visually impaired. Claire plays a huge role in helping her students succeed in the classroom. She helps Cattleya find ways of doing things a little differently in order to learn what she needs. They had to be creative to come up with a tactile representation of multiplication families, so Cattleya could understand that special concept. They also had to come up with creative ways for Cattleya to be able to run.

When Cattleya decided she wanted to run a 5k, she first walked the course with a guide so she could learn the layout. She experimented with holding onto a tether to follow a guide, and even ran behind a classmate holding a shaker in a school race. She wanted to find a way, and she did. She completed FBC's Stride for Sight 5k race, showing what is possible with a little adaptation and a lot of determination.

Cattleya is courageous, persistent, and is always willing to put in the work to show people that she can do anything.

Her favorite thing to say is, "I can do it."

Jalil's Story

For FBC student Jalil, jokes are more than just something to get a quick laugh. Jalil is visually impaired, but he also has Cerebral Palsy, which affects his ability to speak. When his teacher Barb came to school with a new joke she had heard from her granddaughter, Jalil ate it up.

Seeing how Jalil reacted to hearing and then sharing her joke, Barb thought of a novel way of teaching her student. She took him on his own comedy tour around FBC to tell the jokes he has learned to anyone who will listen. His latest joke? "What kind of bagel can fly? A plain bagel!"

On his last tour, Jalil not only told this joke, but he was able to remember jokes he had told in the past as well.

Jalil's jokes are funny, but it's much more than a fun excursion. By getting out of the classroom, he gets to practice his speech, explore new locations, and meet new people. Those are all vital elements of his development. Until he came to FBC, Jalil didn't have the opportunities he needed to flex these muscles, but the teachers that work with him are always looking for new ways to encourage growth.

Many of the students at FBC are multiply-disabled, which is why we are lucky to have the best teachers in the world. They get our kids to take their first steps, say their first words, and live to their full potential. Jalil is learning new things every day to improve his speech, mobility, and vision skills, but sometimes, the best lesson is a little fun.

His latest joke? "What kind of bagel can fly? A plain bagel!"
